

# Adding JB Learning Content to Your D2L/Brightspace LMS

*This document provides steps for adding, or deep-linking, JB Learning online courseware within your D2L/Brightspace Learning Management System (LMS). Note, an LTI integration with JB Learning is a prerequisite, and these instructions assume applicable initial steps are complete.*

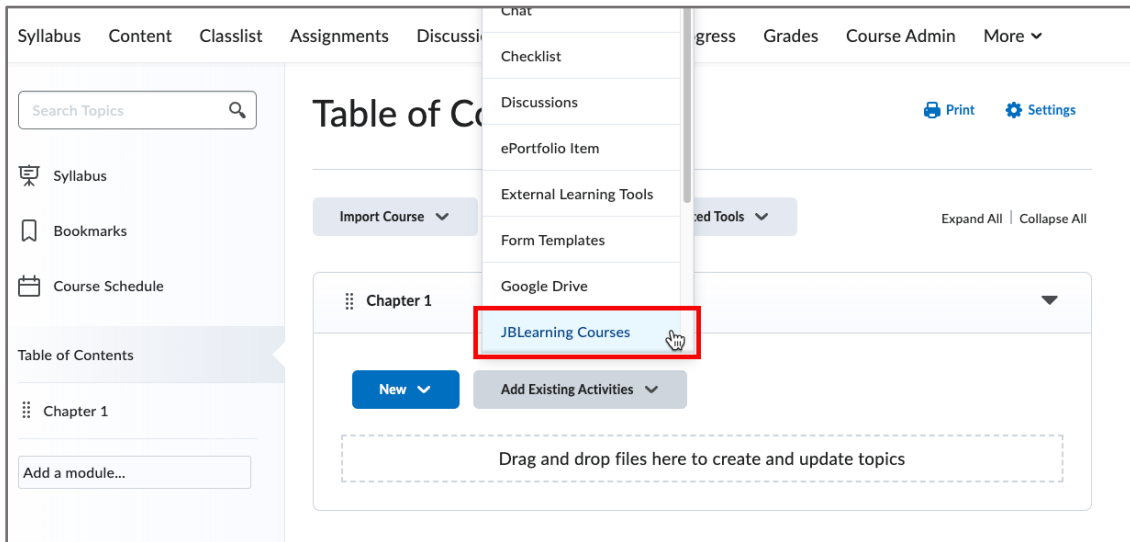

1. First, navigate to a course, or create a new course, in which you would like to add content in your D2L/Brightspace LMS. Then, click on the **Content** menu option at the top-right of the screen and choose the module or chapter in which you would like to add the contents. Select **Add Existing Activities** dropdown menu option.

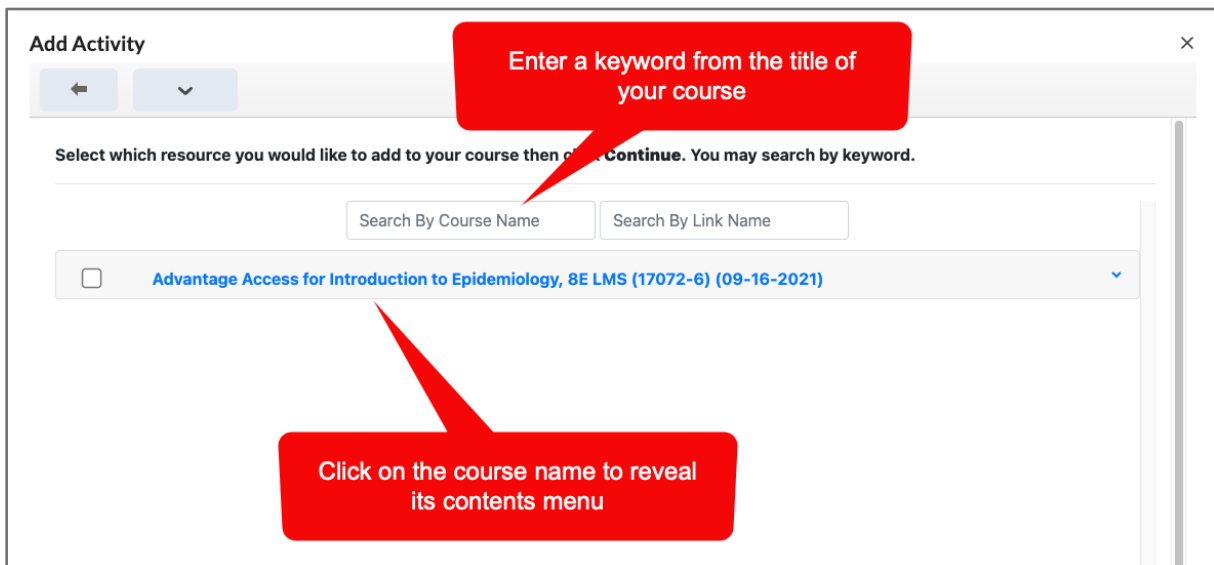

The screenshot displays the D2L/Brightspace LMS interface. At the top, a navigation bar includes 'Syllabus', 'Content', 'Classlist', 'Assignments', 'Discussions', 'Quizzes', 'Class Progress', 'Grades', 'Course Admin', and 'More'. The 'Content' menu item is highlighted with a red box and a red arrow pointing to it. Below the navigation bar, the 'Table of Contents' section is visible, featuring a search box, 'Print', and 'Settings' options. The 'Table of Contents' section includes a 'Chapter 1' dropdown menu. Below this, there are buttons for 'Import Course', 'Bulk Edit', and 'Related Tools'. The 'Add Existing Activities' dropdown menu is highlighted with a red box and a mouse cursor. Below the dropdown menu, there is a dashed box with the text 'Drag and drop files here to create and update topics'.

- From the **Add Existing Activities** drop down menu option, scroll down as needed to locate and select the **JB Learning Courses** from the list.

- A popup window displays a list of available courses to which you have access. Use the **Search By Course Name** field to locate your course as needed. The list automatically refreshes results based on keywords entered. Click on your course's name to display a dropdown list of its contents, then use the **Search By Link Name** to further filter by individual course assets, if necessary. The course item's menu must be expanded to use this search option. **Note**, it is important to only add content from approved titles for your course. Students are unable to access any content outside of your chosen curriculum.

3. Contents are organized using the default course structure, typically by chapters aligned with the textbook. You may add the chapter contents to the according modules/chapters one at a time (**recommended**) by selecting the checkbox to the left of the chapter name, then clicking **Continue**.

Select which resource you would like to add to your course then click **Continue**. You may search by keyword.

<input checked="" type="checkbox"/>	Chapter 1 Foundations of Epidemiology
<input checked="" type="checkbox"/>	Chapter 1 Foundations of Epidemiology
<input checked="" type="checkbox"/>	Learning Objectives: Chapter 1
<input checked="" type="checkbox"/>	Chapter 01 eBook Quiz
<input checked="" type="checkbox"/>	Flashcards: Chapter 1
<input checked="" type="checkbox"/>	Slides: Chapter 1
<input type="checkbox"/>	Chapter 2 Historic Developments in Epidemiology
<input type="checkbox"/>	Learning Objectives: Chapter 2
<input type="checkbox"/>	Chapter 2 Historic Developments in Epidemiology
<input type="checkbox"/>	Chapter 02 eBook Quiz
<input type="checkbox"/>	Flashcards: Chapter 2

4. The following confirmation page displays a preview of the contents selected. Scroll to the bottom and click **Import Resources**.

You have selected the following resources to import. If this is correct click **Import Resources** to add them to your course.

**Advantage Access For Introduction To Epidemiology, 8 E Lms (17072 6) (09 16 2021)**

Chapter 1 Foundations of Epidemiology

Learning Objectives: Chapter 1

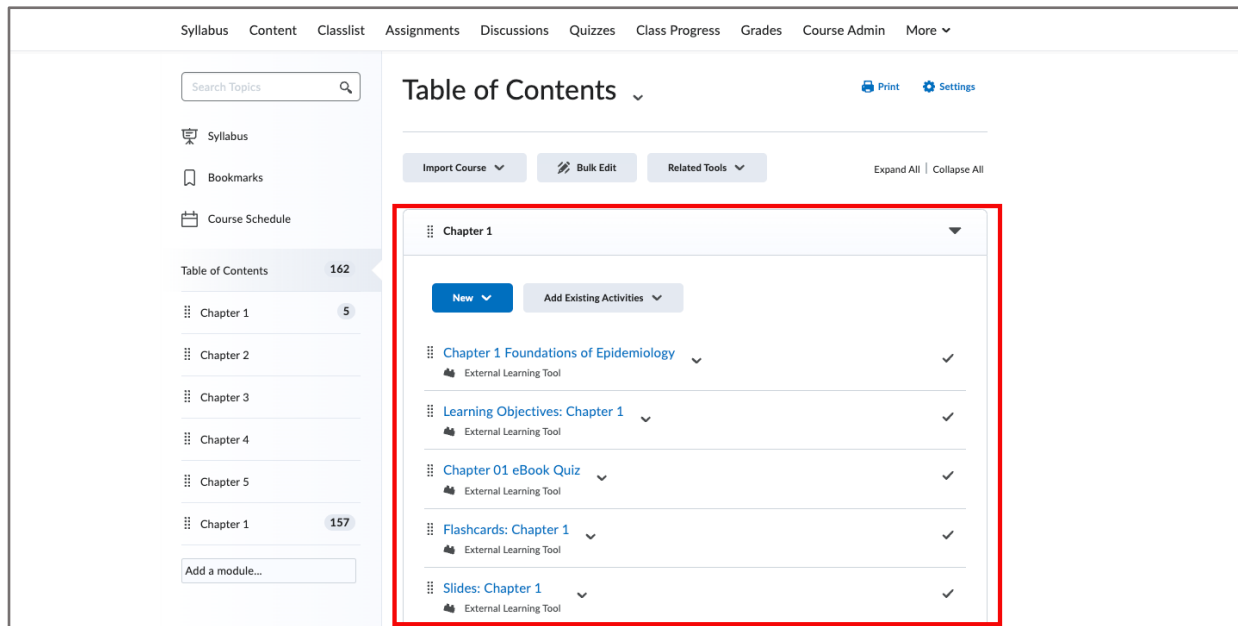

Chapter 01 eBook Quiz

Flashcards: Chapter 1

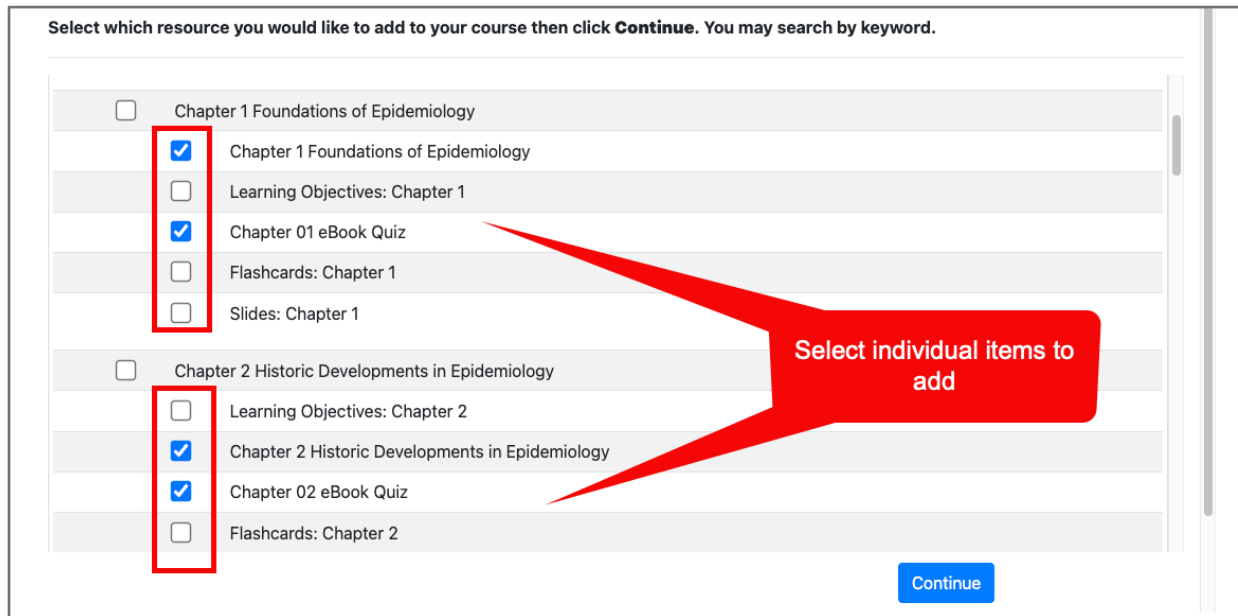

Slides: Chapter 1

[Back](#) [Import Resources](#)

5. You are returned to your course where the imported contents are added to the chapter/module. Repeat these steps as needed to continue building your course.

6. Alternatively, you may select individual items from chapter(s) from the menu one at a time, or multiple in combination. Using the same JB Learning Courses tool as shown in Step 2, expand the course's content menu and use the respective checkboxes to the left of the item to import, then click **Continue**.

7. The confirmation page displays a preview of the content selected. When satisfied, click the **Import Resources** button.

### Review Selected Resources

You have selected the following resources to import. If this is correct click **Import Resources** to add them to your course.

- Advantage Access For Introduction To Epidemiology, 8 E Lms (17072 6) (09 16 2021)
- Chapter 1 Foundations of Epidemiology
- Chapter 01 eBook Quiz
- Chapter 2 Historic Developments in Epidemiology
- Chapter 02 eBook Quiz

[Back](#) [Import Resources](#)

8. You are returned to your course where the imported contents are added to the chapter/module. Repeat these steps as needed to continue building your course.

- Chapter 2 Historic Developments in Epidemiology External Learning Tool ✓
- Chapter 02 eBook Quiz External Learning Tool ✓

9. Lastly, you may also add all contents to your D2L course in one step by selecting the checkbox to the left of the course name, then clicking **Continue**. Note: This method is not usually recommended as this will result in putting all items in one chapter/module, and you may need to reorganize your course afterwards.

**Add Activity** [Close]

Select which resource to add to your course then click **Continue**. You may search by keyword.
